

COIL HEATERS ENCAPSULATED IN BRASS / BRONZE

STANDARD DETAILS

- Coil heater encapsulated in brass / bronze with outer sheath of stainless steel
- Wall thickness 4.5 up to 5.5mm, depending on integrated coil heater
- For inside diameter, min. and max. length and wall thickness (see table below)
- Voltage : 230V
- Exit: axial, radial or tangential
- Connection option: 1000mm teflon leads with earth and fibreglass protective sleeving and/or sprague tubing.

ORDERING OPTIONS

- With or without built-in thermocouple (J, K)
- Inside diameter
- Tolerance of inside diameter
- Outside diameter
- Length
- Spacing of coils
- Wattage
- Voltage
- Exit: axial, radial or tangential
- Connection length

MINIMUM, MAXIMUM LENGTH AND DIAMETER			
Inside Diameter in mm	Min. Length in mm	Max. Length in mm	Wall thickness in mm
12 - 15	25	250	4.5 - 5.5
16 - 18	25	220	4.5 - 5.5
19 - 21	25	200	4.5 - 5.5
22 - 26	25	180	4.5 - 5.5
27 - 36	25	150	4.5 - 5.5
37 - 41	25	120	4.5 - 5.5
