

TEMPERATURE CONTROLLERS

VERTEX VT 26 RANGE - dual display

STANDARD FEATURES

- Selectable inputs (Thermocouple, RTD, or Linear signals)
- Fuzzy logic P.I.D. Control
- Soft - start
- Auto / manual bumpless transfer
- Ramp / Soak functions
- 2 alarm outputs (selectable)
- Standby and latch can be combined with 8 different alarm functions
- Universal supply 90...264 VAC (50/60 Hz)
- Output: Relay, SSR or continuous (4...20 mA, 0...50 mV, 1...5 V, 0...10V)

ORDERING OPTIONS

- Output 2 for cooling
- PV or SV transmission
- 4...20 mA remote set point output
- RS 485 communication link
- Master / slave transmission
- Power supply: 24V

Heating and Control Solutions that exceed Industry expectations
